ECSTA PS91

EXTREME SPORTS

Designed for world's greatest sports cars

Born from Kumho's motorsport pedigree, the PS91 provides the ultimate in high-speed driving safety and cornering. The ECSTA PS91 delivers "enhanced grip, braking ability, high-speed durability and uniform ride qualities."

The new range is available for 19 and 20-inch rim diameters with a speed rating over 300km/h

Different front / Rear pattern design

- Immediate handling response by wide shoulder and rib-type centre block design
- Maximised tyre grip and block stiffness of rear tyres with optimised groove pattern design

(Y) Speed rating

- Stable durability and running performance at over 300km/h

* (Y) Speed rating = the highest speed rating for tyres with speed capability over 300km/h.

Tread design

- Three dimensional block (C-Cut 3D) and the high-stiffness advanced belt package are applied to deliver high speed stability

To fit such cars as Porsche 911, Audi R8, Mercedes AMG, BMW, Lexus, Holden Special Vehicle, Ford Performance Vehicle and so on

Rim Size 19 - 20 inch
Series 45 - 30
Speed Rating Y
Pattern Design Asymmetric

ECSTA LX KU27

COMFORT

Designed for the prestige driver, delivering ultra low noise motoring and long mileage

In-Out (Asymmetric) tread design with ultra low noise and silica based compound

Tread wear rating of "600" ensures long mileage

UHP touring tyre for luxury sedans giving superb high speed driving stability, ultra low noise, long wear and year round performance

Heat dimples

- Minimises heat build up in tread blocks, improving high speed durability

3-dimensional 'Sawtooth' sipes

- 3D interlocking sipes assist with water evacuation, snow traction, handling and braking

Longitudinal 4 channel grooves

- 4 circumferential tread grooves for superior water evacuation

Application of 'Multi-Pitch' technology

- Variable pitch tread blocks reduce road harmonics

Rim Size 16 - 19 inch
Series 60 - 40
Speed Rating V - W

ECSTA V720

EXTREME SPORTS

A street/track tyre uses our renowned "Racing Formula" guaranteeing precision handling and durability in high-speed conditions on the street and track.

Ultra High Performance racing compound provides optimum grip performance on cornering.

Carcass strength provides durability and improved handling performance under extreme conditions

"Super Hard Apex" a racing bred technology provides excellent dry handling performance and running stability

Inside-Outside (asymmetric) tread design

ECSTA PS71

SPORTS

A sports performance tyre designed for driving refinement

NEW

Design to deliver fine and stable driving with superb handling and braking performance on wet and dry surfaces

High-speed control stability and handling performance

- Demonstrates optimum high-speed in-line running performance achieved through a solid rib-type block design
- Wide and stable block design ensures running stability and dry performance

Multi-performance characteristics provided by our In-Out Design

- In-side: Provides excellent braking performance on wet roads
- Out-side: Wide-shoulder block design provides stable handling performance

Improved Wet Performance

- Maximized wet performance achieved by applying cross-type grooves and wide grooves at the centre

Compound technology

- High Dispersion 'Micro Silica': Maximises wear, handling performance and fuel efficiency by application of high-dispersion silica.

Maximized driving performance

- 4 main wide grooves direct water drainage out of tread area performance resin

Increased durability

- Application of new hybrid cap ply made of steel belts strengthens casing
- Inclusion of a fabric insert into the sidewall provides extra rigidity

ecowing ES01 KH27

COMFORT

New generation fuel saving technology

The ecowing ES01 (KH27) contains fuel economy and eco-friendly characteristics with great handling performance

The ecowing KH27 recorded greater levels of rolling resistance and 5.1% better fuel economy than the equivalent conventional tyres

OE for BMW 2, Volkswagen Polo and Hyundai Elantra

Better wet grip & traction performance

- By strengthened rib and improved centre block pattern

Handling & cornering

- Closed & notch shoulder gives better handling, better wet grip

LRR (Low Rolling Resistance)

- Special high dispersion silica new sidewall material minimises sidewall deformation and lowers energy loss

Improved handling

- Longitudinal 3 channel & wide lateral groove improves water clearance for high levels of wet performance

Rim Size 14 - 16 inch
Series 55 - 70
Speed Rating H - V

ecowing

Fuel Saving Technology.^Δ

With its fuel-saving* and environmentally friendly compound^Δ, the Kumho Ecowing range will save you money and help the environment.

With the ES01 KH27 saving up to 5.1% in fuel consumption compared to standard Kumho tyres you'll be spending less on fuel.

Also, when you buy a set of Kumho Ecowing ES01 KH27 tyres, our environmental partner Greenfleet will plant a native tree right here in Australia^Δ.

The Kumho Ecowing: Fuel Saving Technology

Proudly Supporting

^ΔEnvironmentally friendly compound is a HA all free compound in which the extender oil is compliant with applicable EU legislation. ^ΔFuel savings of up to 5.1% for Kumho ES01 KH27 tyres as compared with conventional Kumho steel belted radials. In 2013 testing conducted by Kumho and independently observed by Sydney's North Shore Sporting Car Club, the Ecowing ES01 KH27 was found to provide a fuel advantage of 5.1% against a silica compound Kumho KH17 tyre. Fuel savings are due to reduced rolling resistance and friction with the road surface. Based on the 2014 Australian Bureau of Statistics data, the average vehicle fuel consumption in Australia is currently 10.7 litres per 100km. Kumho's Ecowing ES01 KH27 could reduce the average Australian fuel consumption by 0.5 litres per 100km, saving 75.3 litres of fuel each year (based on travelling 13,800km p.a.) or more than \$102.42 per car (based on avg. fuel price of \$1.36). ^ΔTrees are planted by Greenfleet Australia (ABN 22 095 044 465) with cost subsidised by Kumho Tyre Australia (ABN 46 003 300 676). For more information on the work of Greenfleet visit www.greenfleet.com.au. Printed on eco-friendly recycled paper.

SOLUS KH17

COMFORT

A tyre designed to withstand the rigours of urban driving

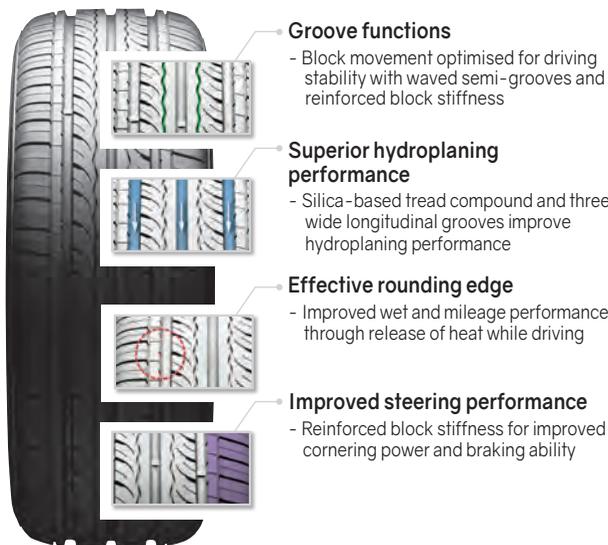

Non directional tread design and low noise with silica based tread compound

Strong wet and dry traction with lower noise levels and better ride comfort

OE for Holden Cruze, Sparks, Hyundai i20, i30, Kia Rio, Forte and more

First place for two consecutive years in a tyre test held by Russian Automotive magazine, Za Rulem
Rated 'Very Recommended' by ACAC motorwelt magazine

ROAD VENTURE AT51

MODERN

A new modern all-terrain design that optimised dry, off road traction & wear performance

Morden All-Terrain tyre for light trucks, high level of braking and handling performance

Aggressive design & optimised for dry, off road traction & wear performance

Suited to 70% on road and 30% off-road use

ROAD VENTURE AT KL78

TRADITIONAL

A classic all-terrain design that combines off road traction with great highway performance

Classic All-Terrain tread design

Combines off road traction with great highway performance with a quiet comfortable ride suited to 70% on road and 30% off-road use

Selected as "Off Road Tyre 2009" by the editorial staff of German 4x4 magazine "Off Road"

- Improves off-road performance**
 - Full depth circumferential Zig-Zag groove & multiple lateral grooves and sipes improves on/off-road performance
 - Dual pitch in centre block improves off-road traction & enhances stiffness performance
 - Wider, Block stiffness & Contact area increase
- Enhances Long-term Durability**
 - Stone-ejector bar prevents stone pinch
 - Robust belt/bead design - High stiffness "Cap Ply" & "Bead Wrapping" applied for durability
 - A cut and chip-resistant compound into asymmetric all-terrain tread pattern with off road traction
- Maximise traction**
 - Chamfer cut-angular shape of c-cut applied to maximise traction

All Terrain

Sport

Handling

- On & off driving traction**
 - Circumferential zig-zag grooves, along with multiple lateral grooves and sipes, provides excellent driving traction both on and off the highway
- Wet performance**
 - Full depth circumferential tread grooves evacuate water from the footprint area, reducing the risk of hydroplaning, and improving wet handling and braking
- Balanced performance**
 - Siped tie bars promote optimised tread wear/traction/ride balance for the life of the tyre
- Noise reduction**
 - Computer generated sequential pitch design for optimum traction with a quiet ride

McGRATH FOUNDATION

**McGrath
Foundation**

WITH THE SUPPORT OF A
McGRATH KUMHO TYRE
BREAST CARE NURSE,
WE'LL TRAVEL
TOGETHER

Kumho is proud to support the McGrath Foundation

For the next three years, Kumho will fund a McGrath Breast Care Nurse, dedicated to helping families experiencing breast cancer by providing invaluable physical, psychological and emotional support from the time of diagnosis and throughout treatment.

Thanks to this initiative, Kumho's total donations to the McGrath Foundation since 2009 will exceed one million dollars, helping make life for families experiencing breast cancer just that little bit easier.

**McGrath
Foundation**

PorTran KC53

Powerful block design for heavy van/commercial usage with excellent drainage characteristics

The new generation for light commercial vehicle tyre with high mileage and good handling properties

RADIAL 857

Radial tyre for commercial light trucks, transporters and vans

Solid commercial construction delivers high levels of durability and reliability for a light commercial usage

Handling performance

- Wider tread width & solid centre rib for dry handling
- Increased cavity volume wide straight circumferential for wet handling/aquaplaning

Low RR and high mileage

- Rib style tread pattern
- Optimised pitch sequence with multi-pitch
- Optimised void design to maintain rib stiffness

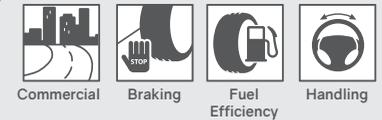

Improved traction performance

- Deep zigzag grooves for increased mileage and traction

Improved ride & noise

- Straight centre groove and sipes on four ribs to improve ride and noise reduction

KRS02

Regional light commercial tyre for highway application

- Regional steer tyre for highway application
- 5 Rib design allows wider belt package for greater steering stability
- Outstanding wear resistance in heavy load conditions
- Four wide groove design improves hydroplaning resistance

KRA50

All position tyre for up to 4.5t commercial Pick-up & Delivery vehicles

- Deep tread tyre pattern provides extended tread wear
- Excellent tyre for up to 4.5t commercial P&D vehicles
- Sturdy 4 rib design & abrasion resistant compound maximises even wear across the tread area

- Wide and strong shoulder ribs**
 - Wide and strong shoulder ribs resist irregular wear and scrubbing on curvy road
 - Mini-sipes on the groove wall of five ribs improve even tread wear and traction
- Stone ejector implanted**
 - Stone ejector implanted on central grooves bottom helps prevent stone drilling
 - Tread centring groove potentially enhances uniformity, handling and wear by improving centring of tread component

- High mileage**
 - Sturdy 4 rib design to maximises even wear across the tread area
 - Abrasion resistant compound to maximise tread life
- Improved durability**
 - Reinforced steel body carcass
 - Exceptional steering response
- Wet performance**
 - Excellent water evacuation performance

Road Hazard Warranty

Kumho Road Hazard Warranty gives the customer peace of mind when purchasing Kumho Ultra High Performance tyres.

Kumho will replace a tyre free of charge if the tyre is damaged from potholes, gutters and objects on the road.

The guarantee is valid for the first 25% of the tread or the first twelve months from original store invoice date.

The recommended retail price is \$3.95 per tyre.

Brand Marketing

Terms and Conditions

All offers available at participating dealers only.

^ Mileage guarantee is a pro-rata guarantee, meaning you are refunded for mileage not achieved. A service schedule is included in the guarantee program. See in store or on our website www.kumho.com.au for full terms and conditions. * Fuel savings of up to 5.5% for Kumho ecoing All Season KH30 and up to 5.1% for Kumho ES01 Season KH27. Fuel Savings are due to increased rolling resistance. The ecoing All season KH30 testing was undertaken by the Korea Automobile Testing and Research Institute (KATRI) in Korea in December 2009. ecoing All Season KH30 tyres where tested against regular compound Kumho KH16 tyres and other brand tyres and found to provide fuel savings of up to 5.5%. The ecoing ES01 KH27 testing was undertaken by North Shore Sporting Car Club in Australia in March 2013 against a silica compound Kumho KH17 tyre and found to provide a fuel advantage of 5.1%. Environmentally friendly compound is a HA oil free compound in which the extender oil is compliant with EU legislation applicable starting 2010. (so called High Aromatic oil has been eliminated). # Roadhazard warranty is valid for the first 25% of the useable tread life or 12 months which ever occurs first. YOUR RIGHTS - Our mileage guarantee and road hazard warranty is in addition to other rights and remedies that you have under a law in relation to the goods that we provide. Further, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Why Choose Kumho?

Kumho Tyres was established in 1960, and is now ranked as one of the top ten tyre companies in the world. We have a global presence across 180 countries and produce more than 68 million tyres every year.

Contribution to society

To make a difference in the Australian community, Kumho thinks globally and acts locally. Our commitment to local causes has seen substantial contributions that have a positive effect on many lives.

One such action is our support of the McGrath Foundation, donating \$100,000 annually to assist in breast cancer awareness and the provision of breast cancer nurses in Australia's under-resourced rural areas.

Our annual "Pink Fitters Day" sees over 2,000 tyre dealers wearing pink to raise thousands of dollars.

Product & Innovation

We are always striving to create the best product possible and at Kumho, this means reducing the impact of cars on the environment. Our "ecowing" is our new range of environmentally friendly tyres. Their 'nano' compound technology provides lower rolling resistance and road friction, boosting fuel efficiency by up to 5.1% and reducing CO2 emissions. Their long tread life also reduces the rate of tyre disposal, meaning less bald tyres in landfill.

And that's just the beginning. Our commitment to Innovation has led to the development of the Aroma Technology Tyre - the world's first scented tyre.

The Big Car Brands Choose Kumho

Kumho tyres are the first choice for millions of car owners across the globe. And there can be no better recommendation than being first choice in the factory. In this regard, the trust in Kumho tyres runs deep. Our tyres are fitted as factory standard on many famous car brands including Holden, Hyundai, Kia, BMW, Mercedes-Benz, Volkswagen, RENAULT and CHRYSLER.

Local Experience

When it comes to Australia, Kumho has been selling tyres here for over 30 years.

We employ more than 100 staff, and have expanded over time through carefully managed growth and development. Each year, over 1.3 million tyres are distributed from our five warehouses.

Locations

Kumho tyre retailers are amongst the best in the industry. They are fully trained at the Kumho Academy and can be found at over 1000 locations across the country. Your local dealer's location list can be found at www.kumho.com.au
